EDISON FLORES

eddyflores100@gmail.com | Ecuador (GMT-5) - Remote for US / LATAM / Europe | AliceLabs LLC

PROFESSIONAL SUMMARY

Web designer and automation specialist, founder of AliceLabs LLC. I build business websites, e-commerce stores and high-converting landing pages (WordPress, Shopify, HTML/CSS/JS), and connect them to AI chatbots and workflow automations that save teams hours every week. I also set up CRM lead-capture flows, customer-service bots and no-code integrations (n8n, Make, Zapier). Not a software engineer - a hands-on builder focused on design, delivery speed and clear communication. Fully remote, comfortable with US business hours, available for contract and full-time roles.

WORK EXPERIENCE

Founder & Web Designer / Automation Specialist

AliceLabs LLC | 2023 - Present | Remote

- Designed and delivered client websites end to end: discovery, design, build, launch and handoff training
- Built AI WhatsApp chatbots for customer service and sales lead capture, connected to client tools
- Implemented automation workflows (n8n, Make, Zapier) for lead routing, notifications and CRM updates
- Managed domain/DNS, hosting, basic SEO and site maintenance for small-business clients

SELECTED PROJECTS

Responsive Business Website - Water Utility Services

WordPress · custom theme · mobile-first

- Corporate site with service catalog, quote-request forms and WhatsApp contact integration

Luxury Fashion E-commerce Store

Shopify · premium catalog · payments & shipping setup

- Full store build with luxury brand styling, product collections and conversion-focused product pages

Dental Clinic Landing Page

Landing · lead capture · A/B-ready copy blocks

- High-converting single-page site for appointment booking with form + WhatsApp CTA

Responsive Product Catalog

Catalog site · filterable grid · mobile-first

- Product catalog with categories, search and responsive layout for field sales teams

Software Company Portal

Corporate portal · documentation & support sections

- Multi-section portal for a software company: product pages, resources and support entry points

AI WhatsApp Customer-Service Chatbot

AI agent · FAQ automation · lead handoff

- Chatbot that answers FAQs 24/7, qualifies leads and hands conversations to the business owner
